## Elected Officials and Courts

### *Local Government*

- All local constitutional officers — often called upon in defense of constitutional rights as many still view them as the last line of defense for their constitutional rights.
- Local school boards — currently coming under significant fire for their response or lack thereof to COVID, legislation, and other issues pertaining to children's health.
- Local county administrators and city managers — while it is the responsibility of elected boards to direct policy, administrators are often placed in situations where they relegate that authority to their appointees.
